

52nd Annual Northeastern Ontario Water 2015 WORKSHOP AND TRADE SHOW

May 27th and 28th, 2015

DAY ONE

OPERATOR TRAINING DAY

Wednesday, May 27, 2015 from 8:00 a.m. to 4:00 p.m.
Delta Sault Ste. Marie Waterfront

Cost \$175.00 per person (includes lunch)

You may choose one of the following:

Disinfection Byproduct Control – The participant will learn about the changes in DBP concentrations and specifications that can take place in actual distribution systems, where DBP formation can be affected by pipe walls, biofilms, flow rates, residence time, changing storage tank levels and free chlorine residuals. This course will focus on the factors that affect THM and HAA behavior in distribution systems.

- OR -

Understanding Tech. Dwg and Specifications - The course will introduce the Water and Wastewater Operator to how to read technical drawings and design specifications specific to water and wastewater utilities. When given a plan and profile drawing, students will read and interpret the information contained in the title block, notes, legend, revision block, drawing grid and drawing to 3 dimensionally locate water and wastewater piping and appurtenances.

Upon Successful Completion – 0.7 CEU's will be awarded.

For those not attending training, there will be a "Supplier's Annual Joe Kitaj Memorial Golf Tournament".
See enclosed information.
